Dear John and Gerry,

We received the final copy of the video you produced for us, 'Anglican Churches of Renfrew County', and just wanted to thank you for this excellent product. I was impressed originally with the very professional and respectful way you videotaped our churches and worship, and with the commitment and energy you showed in getting out to all our far flung locations. And your skill at interviewing the clergy, taping and editing the interview in a way that somehow showed the best in us, is much appreciated.

Now I am even more impressed, as the final result of all this is more than we had hoped for in every way. First of all, it is longer than you had promised which is an unexpected bonus. And it presents such a wonderful overview of our life together in the church, both in the past and the present, that I can see us using this presentation at events in our church life for years to come.

Thank you so much for your skill, expertise and care in producing this video for us. We are most grateful, and should we need something like this in future will certainly call on you again.

With our gratitude and blessings,

The Venerable Rob Davis
Archdeacon of Pembroke
